

Security Upgrades

Philadelphia, PA
Client: Non-Public Schools

Project Description:

Under the Pennsylvania Targeted School Safety Grants for Nonpublic School Programs, Admiral Integration provided a comprehensive security upgrade for this Pre-K–5 school located in Frankford area of Philadelphia, PA.

The project focused on enhancing campus safety and situational awareness through the installation of high-definition security cameras, access control systems, and low-voltage cabling infrastructure.

Services Provided:

- Worked with hardware provider and school management to develop a tailored security plan addressing each building's needs
- Deployed Video Intercom Readers with integrated strike locks at main entry points to manage and monitor access
- Installed a range of Multisensor, Dome, and Fisheye Cameras
- Supplied and installed all required camera and intercom mounts, PoE injectors, and miscellaneous components
